

SCUBA LUV MAUI DIVE REPORT

KEAWAKAPU BEACH

“CRITTER OF THE WEEK”

(808) 870-2738

BLUEFIN TREVALLY—“ ulua”- These beautiful jacks are silvery blue with scattered blue spots, hints of bright yellow and electric blue fins. When approached they can quickly change their coloration to almost black. They are the most common Jacks in Hawaii, growing to about 30”. This guy is being groomed by an adult Cleaner Wrasse . In the background are several Domino Damsels. If you want to see the cool stuff, find a “cleaning station” and just hang out . You never know what will cruise in ...just like the line-up at the car wash on Saturday morning!
